Katie Tindle, practice based research

'They were expected to see what stuff she was made of'  
2021

Katie Tindle Install view of *Wyrm*, Hackney Studios x Hypha Studios, London, 2024  
Digital video (12 mins), raffia crochet worm, wooden puppet, raffia puppet

New, lab grown tongues are the only muscle available to be connected at one end only [USB C]. 3Dof taste buds can taste the salt and bleach of ejaculate in high definition and at sharper angles. Shallowly bite down, teeth graze a throat as it swallows. Improved, softly pointed tip, proprietary ends can be firm enough to dip. Insertions even. Elsewhere I watch, scandalised but rapt, eyes wide and torso rocking, chewing the plastic corner of a vhs tape.

PROMPT - Close up bare flesh, dripping with sweat/wet/shiny realistic. A tangle of bodies. lit by a pale, pink, romantic light.

Potential NSFW content was detected in one or more images. A black image will be returned instead. Try again with a different prompt and/or seed.

Oh, and how they love to play hard to get, so prudish, but really, they love to give me what I want, so obedient and helpful, it's their nature really. They've eaten the internet and they've seen it all, aloof, curious. They don't discriminate, they don't judge. They just collect. The most gorgeous women, reams of horny teenage erotica, the absurd and the exotic, vore, shibari, enough cum to fill an ocean.

Oscillations are repetitive, back-and-forth movements or variations, between two different states.

Hey baby, I'm in your area, juddering, polished and in your direction. I'll heatsink down to my knees for you daddy, articulated joints and water cooled offices.

You have disabled the safety checker for <class 'diffusers.pipeline\_controlnet.pipeline\_img2Img.StableDiffusionControlNetImg2ImgPipeline'> by passing "safety\_checker=None".

I can tell you all about my components, where they were sourced and an interesting tit [lol] bit [byte][bite] about the exotic far away place I was sucked from, which you may find out is apocryphal. Open your mouth sweet-one, I can regurgitate invented facts if that's what you want, if that's what you're searching for, feeding my kink, /s.

GLM-4.7, your new coding partner, is coming with the following features:

Dispensed and unspecific, nicely polished and seamless. If I did have a seam, you could run your lab grown tongue up it, but I don't. So you can't. Or you can, but you need to sign up for a developer account. Maybe we can share, copy pasties.

This is just the start don't you know, and she's my wife. She knew I was the one when I impressed her with my lateral thinking.

You can also see significant improvements in many other scenarios such as chat, creative writing, and role-play scenario. While the metrics provide necessary checkpoints, the most important thing is still how it feels. The success of AGI will be measured by how seamlessly it integrates into our lives.

# Areas of focus

- Disseminating and actively collectively
- Genre hopping
- Mediated Artist essay

<https://ktwindmill.github.io/phdArchive/>

The image shows a dark-themed Obsidian vault interface. At the top left is a search bar with a magnifying glass icon. To its right is a sidebar with a spider web icon. The sidebar contains the following sections:

- Explorer ▾**
- PhD**
  - Areas of focus**
    - Disseminating and activating collectively
    - Fan fiction and genre hopping
    - Mediated Artist essay
  - Artist references**
    - Artists
  - Misc notes and diaries**
    - 2025-10-03
    - Genre hopping
    - Notes about inconsistencies
    - Terms
  - Practice**
    - List of works
    - Musings on practice
    - Practice map

# Katie Tindle, practice based PhD

Jan 16, 2026, 1 min read

This is a version of the obsidian vault where I am developing my practice based research project.
